Welcome to the Truax Building

The Truax Building is a one of a kind four-story, 65,307 square feet, mixed used (office / retail) building in Old Town Temecula. Located on the Southeast corner of Old Town it has become a landmark for all visitors to see as they are heading north on the I-15 corridor.

A classic "turn-of-the-century" Class "A" building with its dramatic stone and glass lobby features, the Truax Building enjoys unobstructed visibility from the freeway and 360-degree views over the pristine Santa Rosa Plateau.

REDEFINING OLD TOWN: "THE BLOCK"

The Truax Building was the first phase of a 3-phase project called the Block, which is a total turn of the century environment based on the 1884 Plat Map drawn by Mr Fred Perris, and brought to fruition through a combination of Victorian Planning and New Urbanist principles: Four sided buildings, multiple and varying facades, a safe pedestrian environment enhanced by linkages to Old Town's classical city grid and complex and intriguing "paseos".

GROUND-BREAKING FOR TRUAX HOTEL: 2019

After 10 years of planning the "Block" is scheduled to break ground in 2019: a 5-story / 151-room Boutique Hotel consisting of Turn of the Century design and the latest state of the art technology. The hotel is being designed as a full-service luxury hotel that will included a banquet room, a spa as well as a restaurant, retail space and a proprietary 200+ stall valet parking structure located directly across from the main entrance to the hotel.

The hotel will sit right next to the Truax Building and span the entire Northern side of the block along 3rd street, effectively linking Mercedes Street to Front Street. The beautiful paseos will invite the bustling walking traffic of Front Street to explore their elegant shops and discover many hidden treasures...
